

# What to do if your data was leaked in the HSE Cyber Attack

## 9 Step

1 Be extra vigilant

2 Check if your email address was in a breach on <https://haveibeenpwned.com/>

2

3 Now is a good time to get a Password Manager like LastPass

3

4 Enable MFA on all online accounts

4

5 Time for a password checkup <https://passwords.google.com/checkup>

5

6 Ignore and Block all suspicious text messages/phone calls especially from 083 numbers

6

7

7 Do not act in haste - walk away from any suspicious mail or voice mail for at least 20 minutes before considering next steps.

8

8 Ignore any robo-calls that leave automated voicemails esp. relating to 'drug trafficking' and social welfare fraud.

9 Follow @CybConsortiumIE on twitter for more cyber awareness
